**Alternative Investments** which are externally held are included on the statement solely as a service to the client and are not covered by SIPC. Cost basis may not be identified for alternative investments that are percentage ownership based. Information (including valuation) is derived from the client or other external source for which Stephens is not responsible. If this account statement includes a per share estimated value for Direct Participation Program ("DPP") or Real Estate Investment Trust ("REIT") securities, these securities are not listed on a national securities exchange, are generally illiquid and, even if you are able to sell the securities, the price received may be less than the per share estimated value provided in the account statement. Additionally, the following notice is provided to holders of DPP and REIT securities for which this account statement includes a net investment per share estimated value: **IMPORTANT - Part of your distribution includes a return of capital. Any distribution that represents a return of capital reduces the estimated per share value shown on your account statement.**

**Annuities** are held outside your Stephens account by the issuing insurance companies. Stephens is not the custodian for IRA annuities. Annuity information is provided by the insurance companies and Stephens cannot guarantee its accuracy. Please refer to statements sent by the insurance companies for annuity valuations, tax reporting information, IRA required minimum distributions, IRA fair market value reporting, and other details. Annuities are not covered by SIPC.

**Valuation** of securities is obtained from independent pricing services, the issuer or other sources that we consider reliable. Some prices are approximations and in some cases prices may not accurately reflect prevailing market quotes, especially for fixed income securities, illiquid securities, securities that are not actively traded and investments held outside your account such as annuities and alternative investments. We do not undertake to independently verify reported prices. The Current Price of securities is rounded to three decimal places. The Current Value of securities is calculated with the unrounded price. The valuations shown on your statement are provided only as a general indication of the portfolio value and do not necessarily reflect the value at which your positions could actually be traded in the market.

**Unpriced securities** are not included in the Current Value in the Portfolio Assets section.

**Cost Basis** information is provided for customer benefit. Cost basis may not be identified for alternative investments that are percentage ownership based. IRS regulations require that Stephens adjust cost basis using the constant yield method for specified fixed income securities on all open tax lots acquired at a premium beginning January, 2014. Customers are encouraged to check their cost basis and report any discrepancies or adjustments to their Financial Consultant. And as always, customers should consult their tax professional for any and all tax advice.

**Whenever an asterisk (\*)** is displayed beside a Book Value, it has been affected by the wash sale rule.

**Fixed Income** securities are listed in order of maturity. Moody's and Standard & Poor's provide bond ratings. For more information about bond ratings please contact your Financial Consultant.
